

# Advanced Technology Bonuses for New Construction Projects

California Energy-Smart Homes provides incentives to ease the transition to all-electric construction. To further advance the market towards clean energy technology and decarbonization and reduce design and installation costs, the program offers Advanced Technology Bonuses.

## Eligibility and Participation Requirements

New Construction Advanced Technology Bonus Measure Incentives per Enrolled Dwelling Unit	Single Family	Multifamily Low-Rise
Variable Capacity Heat Pump (VCHP)	\$300	\$300
Heat Pump without Electric Resistance	\$300	\$300
Integrated Heat Pump Space and Water Heating	\$1,000	\$1,000
Low Global Warming Potential (GWP) Heat Pump	\$800	\$800
Passive House Certification	\$1,000	\$400
Heat Pump Pool or Spa Heater (per installed piece of equipment)	\$1,000	\$1,000
Verified ACCA Technical Manuals (per plan type)	\$400	\$4,500
Central Heat Pump Water Heater Design (per project/developer and must include full MEP design, cost, and documentation)	N/A	\$5,000
Central Heat Pump Water Heater Installation (per unit served)	N/A	\$500

Properties must enroll in California Energy-Smart Homes to receive additional Advanced Technology Bonus incentives for single family or multifamily low-rise (up to three stories) projects.

*Program funds are limited. Incentives are available on a first-come, first-served basis until funds are no longer available.*

# Advanced Technology Bonuses for Whole Building Electrification Alteration Projects

California Energy-Smart Homes provides incentives for all-electric alterations. To further advance the market towards clean energy technology and decarbonization and reduce design and installation costs, the program offers Advanced Technology Bonuses.

## Eligibility and Participation Requirements

Whole Building Electrification Alteration Advanced Technology Bonus Measure Incentives per Enrolled Dwelling Unit	Single Family	Multifamily Low-Rise
Variable Capacity Heat Pump (VCHP)	\$300	\$300
Heat Pump without Electric Resistance	\$300	\$300
Integrated Heat Pump Space and Water Heating	\$1,000	\$1,000
Low Global Warming Potential (GWP) Heat Pump	\$800	\$800
Heat Pump Pool or Spa Heater (per installed piece of equipment)	\$1,000	\$1,000
Central Heat Pump Water Heater Design (per project/developer and must include full MEP design, cost, and documentation)	N/A	\$5,000
Central Heat Pump Water Heater Installation (per unit served)	N/A	\$500

*\*Additional incentives may be available for properties selected for monitoring. A signed Participation Agreement is required to receive the Monitoring Incentive.*

*Program funds are limited. Incentives are available on a first-come, first-served basis until funds are no longer available.*

Properties must participate in California Energy-Smart Homes to receive additional Advanced Technology Bonus incentives for single family or multifamily low-rise (up to three stories) projects.
