

PROGRAM SUBSCRIPTION CAPACITY FREQUENTLY ASKED QUESTIONS

The program will regularly update this FAQ document. For additional clarification or details about your project(s), please reach out to caenergysmarthomes@trccompanies.com.

Waitlist and Enrollment

Q: Why is the program introducing a waitlist and pause on new applications?

A: Due to strong and sustained demand, program funding has reached capacity.

Q: What does it mean if my project is on the waitlist?

A: Project applications submitted at this time will be placed on a waitlist and considered for enrollment if additional funding becomes available. Placement on the waitlist does not guarantee funding.

Q: When do you expect to resume enrolling projects?

A: We do not have a confirmed timeline. Updates will be shared as they available.

Q: Will the enrollment process change when the program reopens?

A: Yes. The program is expected to move from continuous enrollment to defined application windows. Updates will be shared as soon as they become available.

Q: Is it possible my waitlisted project will not be enrolled?

A: Yes. Enrollment will depend on funding availability and other program considerations. Funding is not guaranteed for any project on the waitlist.

Q: My project will complete in 2026 but is not enrolled. What options do I have?

A: We recommend exploring other available programs such as [California Electric Homes Program \(CalEHP\)](#) or other regional programs.

Currently Enrolled Projects

Q: My project is enrolled, is my reserved funding safe?

A: Incentive funding for projects completing in 2026 cannot be guaranteed and remains subject to available funds.

Alterations Projects

Q: When will alteration applications reopen?

A: Alterations offering is currently fully subscribed. A confirmed timeline for reopening is not available at this time, but waitlisted projects will be reviewed and updates will be shared as available.

Q: Are there other programs available for alterations projects?

A: Yes. Additional resources are available through [The Switch is On](#).

Reservation Letters

Q: We have reservation letters for an alterations project, is my reserved funding safe?

A: Incentive payments are subject to available funding and cannot be guaranteed.

Advanced Technology Bonuses

Q: Why are Advanced Technology Bonuses ending?

A: These bonuses were introduced to accelerate market adoption. Due to strong uptake and increased participation, the program is no longer able to offer them.

Q: My enrolled project includes Advanced Technology Bonuses; will I still receive them?

A: These projects are subject to review. The program will communicate directly with participants regarding any updates to incentive reservation amounts.

Projects Completing in 2026

Q: My project is enrolled and completing in 2026, how am I impacted?

A: Incentive payments are subject to available funding and cannot be guaranteed.

Q: I submitted my project completion documents last month, is my project funding secure?

A: For specific details on your project please contact the program team at caenergysmarthomes@trccompanies.com.

Q: My enrollment letter includes payment for Advanced Technology Bonuses; will these be included in my incentive payment?

A: No. Advanced Technology Bonuses are no longer available. Enrolled projects will receive updated enrollment letters.

Q: I need my incentive to be paid out in 2026, can you support this?

A: We cannot guarantee payment timelines. Incentives will be processed as quickly as possible based on available funding.

Projects Completing in 2027-2029

Q: My project is enrolled and completes after 2026, how am I impacted?

A: Projects are subject to the program's published completion review requirements. Incentive payments for all projects are subject to availability.

Q: Will Advanced Technology Bonuses apply for future projects completing after 2026?

A: No. These bonuses will not be available for projects completing in 2027 or later.

Q: Can I move my project completion timeline earlier to secure 2026 funding?

A: No. Funding for 2026 projects is fully subscribed.

Projects Dual Enrolled with California Electric Homes (CalEHP)

Q: My project is also enrolled in CalEHP, are those incentive funds still reserved?

A: CalEHP offers incentives on a **first-come, first-served basis** and is subject to available funding. For projects that have already received an enrollment confirmation letter, CalEHP incentives are reserved as outlined in your enrollment letter and can request payment once Certificate(s) of Occupancy have been issued, all required project documentation has been submitted, verified, and an incentive request form has been received.

Future Incentives

Q: Will incentive levels change when the program reopens?

A: Incentive levels may be updated at any time.
